Summary

Frontend Developer with expertise in React.js, Next.js, Svelte, and responsive design. Passionate about building user-centric web applications and continuously improving through self-driven learning. Seeking to leverage my skills to create impactful digital solutions.

Work Experience

Frontend Developer — ELBY Limited, Rwanda

February 2025 – Present

- Design and implement responsive, user-friendly interfaces using **React.js, Next.js, Svelte, Tailwind CSS, HTML, and JavaScript**, integrating RESTful APIs and reusable components to optimize performance.
- Collaborate with backend developers to enhance application functionality, maintain high code quality, and follow coding standards.

Frontend Developer Intern — ELBY Limited, Rwanda

March 2023 – December 2023

- Developed CRUD and small-scale web applications using **JavaScript, HTML, and CSS**, integrating frontend with RESTful APIs, fixing UI bugs, and improving overall user experience and application stability.

Frontend Developer Intern — WeDance Platform (Remote)

February 2025 – April 2025

- Quickly learned **Vue.js and Nuxt.js** to implement real-time features, fix UI inconsistencies, and integrate backend data, collaborating with teams using **Prisma, tRPC, and Supabase** for a seamless user experience.
-

Education

Secondary School Certificate – Software Development

College George Fox Kagarama, Rwanda

Completed: 2024

- Studied core software development topics including programming fundamentals, SQL databases, and web technologies such as HTML, CSS, JAVASCRIPT, and PHP.
 - Built multiple practical projects applying HTML, JAVASCRIPT, CSS, and PHP.
-

Skills

- **Frontend Development:** React.js, Next.js, Svelte, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Material UI, Shadcn UI, Redux
 - **Backend / Database:** Firebase, Express.js (RESTful APIs)
 - **Version Control:** Git, GitHub
-

Languages

- English — Advanced
 - French — Beginner
 - Swahili — Beginner
 - Kirundi — Native
-

Projects & Personal Development

- **School Management System:** Built a full-stack school management application for managing students, classes, and academic data. Implemented authentication, role-based access, and a modern responsive UI using **Next.js, Prisma, Tailwind CSS, and Shadcn UI**.
- **Social Media Platform:** Developed a full-stack real-time social media app using **React, Firebase, Redux Toolkit, and Tailwind CSS**, featuring real-time chat, live updates for posts, likes/comments, user authentication, and profile management.
- **Kanban Application:** Created a task management tool with state management and database integration using **React.js, Redux Toolkit, Firebase, Material UI**.
- **Admin Dashboard:** Implemented data visualization and management tools with **React.js and Material UI**.
- **Budgeting Application:** Built a personal finance app with dynamic data handling using **React.js and Firebase**.
- **Restoration Website:** Designed a responsive, interactive UI using **HTML, CSS, and JavaScript**.
